

Datasheet: MCA6409GA

BATCH NUMBER 100007432

| | |
|----------------------|------------------------|
| Description: | MOUSE ANTI HUMAN RRAGC |
| Specificity: | RRAGC |
| Format: | Purified |
| Product Type: | Monoclonal Antibody |
| Clone: | AB02/2G5 |
| Isotype: | IgG1 |
| Quantity: | 0.1 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| Western Blotting | ▪ | | | 1/1000 |

The PrecisionAb label is reserved for antibodies that meet the defined performance criteria within Bio-Rad's ongoing antibody validation programme. Click [here](#) to learn how we validate our PrecisionAb range. Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Further optimization may be required dependent on sample type.

Target Species

Human

Species Cross Reactivity

Reacts with: Mouse, Rat

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution

Phosphate buffered saline

| | |
|---------------------------------------|---|
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |
| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml |
| Immunogen | <i>E. coli</i> -derived recombinant protein, aa 1-399 of human RRAGC |
| External Database Links | <p>UniProt: Q9HB90 Related reagents</p> <p>Entrez Gene: 64121 RRAGC Related reagents</p> |
| Specificity | <p>Mouse anti Human RRAGC antibody recognizes ras-related GTP-binding protein C subunit beta-1, otherwise known as GTPase-interacting protein 2.</p> <p>RRAGC is a monomeric guanine nucleotide binding protein that functions as a heterodimer with rag A or rag B. The binding of this heterodimer to mTORC1 leads to mTORC1 being recruited to the surface of lysosomes; thereby enabling mTORC1 to associate with rheb and become activated (Sancak et al. 2010; Yang et al. 2017). Upon amino acid depletion, Rag heterodimers release mTORC1 into the cytosol; suggesting that Rags control mTORC1 signaling in response to amino acid levels (Fingar, 2021).</p> <p>Mouse anti Human RRAGC antibody detects a band of 49 kDa.</p> |
| Western Blotting | Mouse anti Human RRAGC antibody detects a band of 49 kDa in HEK293 cell lysates |
| Storage | <p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p> |
| Guarantee | 12 months from date of despatch |
| Acknowledgements | PrecisionAb is a trademark of Bio-Rad Laboratories |
| Health And Safety Information | Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA6409GA 10040 |
| Regulatory | For research purposes only |
