

Datasheet: MCA6428GA

Description:	MOUSE ANTI HUMAN AMPK BETA 2
Specificity:	AMPK BETA 2
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	AB03/2F11
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/1,000 - 1/2,000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	<i>E. coli</i> -derived recombinant protein, aa 1-272 of human AMPK Beta 2.

Specificity	<p>Mouse anti human AMPK BETA 2 antibody, clone AB03/2F11 recognizes 5'-AMP-activated protein kinase subunit beta-2, also known as PRKAB2.</p> <p>AMPK BETA 2 is part of the serine/threonine kinase family and is expressed in the liver and skeletal muscle. AMPK has been seen to inhibit cellular proliferation and in turn act as a tumor suppressor. This has particularly been seen in liver, lung and colorectal cancer (Li et al. 2015).</p>
Western Blotting	Mouse anti human AMPK Beta 2 detects a band of approximately 32 kDa in HepG2 cell lysates.
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA6428GA 10040
Regulatory	For research purposes only
