

Datasheet: MCA691APC

Description:	MOUSE IgG2b NEGATIVE CONTROL:APC
Specificity:	MOUSE IgG2b NEGATIVE CONTROL
Format:	APC
Product Type:	Negative/Isotype Control
Isotype:	IgG2b
Quantity:	100 TESTS

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	■			*

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. *This antibody should be used at the same concentration as the test antibody.

Target Species	Negative Control								
Product Form	Purified IgG conjugated to Allophycocyanin (APC) - lyophilized								
Reconstitution	Reconstitute with 1.0 ml distilled water Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.								
Max Ex/Em	<table><tr><th>Fluorophore</th><th>Excitation Max (nm)</th><th>Emission Max (nm)</th></tr><tr><td>APC</td><td>650</td><td>661</td></tr></table>	Fluorophore	Excitation Max (nm)	Emission Max (nm)	APC	650	661		
Fluorophore	Excitation Max (nm)	Emission Max (nm)							
APC	650	661							
Preparation	Purified IgG prepared by ion exchange chromatography from tissue culture supernatant								
Buffer Solution	Phosphate buffered saline								
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Albumin 5% Sucrose								

Specificity	<p>Mouse IgG2b Negative Control is negative on all human cells and cell lines tested. This antibody recognises a rat cell surface marker, and therefore cannot be used as a negative control in this species.</p> <p>Mouse IgG2b Negative Control is also suitable for use as a negative control with bovine, ovine, porcine, canine and guinea-pig tissues.</p>
Flow Cytometry	Use 10ul of the suggested working dilution to label 10^6 cells or cells or 100ul whole blood
