

Datasheet: MCA699A647T

Description:	RAT ANTI HUMAN CD49f:Alexa Fluor® 647		
Specificity:	CD49f		
Other names:	INTEGRIN ALPHA 6 CHAIN, VLA-6		
Format:	ALEXA FLUOR® 647		
Product Type:	Monoclonal Antibody		
Clone:	NKI-GoH3		
Isotype:	lgG2a		
Quantity:	25 TESTS/0.25ml		

Product Details

RRID	AB_1102168
------	------------

Applications

Immunogen

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	-			Neat - 1/10

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own systems using appropriate negitive/positive controls.

Target Species	Human							
Species Cross Reactivity	Reacts with: Mouse, Dog, Pig, Cynomolgus monkey, Sheep N.B. Antibody reactivity and working conditions may vary between species.							
Product Form	Purified IgG conjugated to Alexa Fluor® 647 - liquid							
Max Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm)					
	Alexa Fluor®647	650	665					
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant							
Buffer Solution	Phosphate buffered saline							
Preservative	0.09% Sodium Azio	de						
Stabilisers	1% Bovine Serum Albumin							
Approx. Protein Concentrations	IgG concentration	0.05 mg/ml						

BALB/c mouse mammary tumor cells

Fusion Partners

Spleen cells from immunized Sprague-Dawley rats were fused with cells of the SP2/0 mouse myeloma cell line

Specificity

Rat anti Human CD49f antibody, clone NKI-GoH3 recognizes CD49f, also known as the VLA-6 alpha chain. CD49f is a 1107 amino acid ~120 kDa cell surface glycoprotein that forms distinct complexes with CD29 (VLA beta-chain), resulting in the VLA-6 (alpha-6 beta-1) complex, expressed on human platelets, or with the beta-4 integrin resulting in the alpha-6 beta-4 complex expressed on various human epithelial cells.

Rat anti Human CD49f antibody, clone NKI-GoH3 reacts with platelets, megakaryocytes, T lymphocytes and common acute lymphoblastic leukemia cells (alpha-6 beta-1). In immunohistology the monoclonal antibody reacts with epithelial cells of a variety of tissues, peripheral nerves, microvascular endothelial cells, placenta cyto- and syncytotrophoblasts.VLA-6 is an important mediator of cell binding to laminin.

Rat anti Human CD49f antibody, clone NKI-GoH3 blocks the binding of cells to the E8 fragment of laminin (Sonnenberg *et al.* 1998).

Flow Cytometry

Use 10ul of the suggested working dilution to label 10⁶cells in 100ul.

Storage

Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.

Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Shelf Life

18 months from date of despatch.
