

# Datasheet: MCA756SBV790 BATCH NUMBER 64595347

| Description:  | MOUSE ANTI HUMAN CD64:StarBright Violet 790 |
|---------------|---|
| Specificity:  | CD64  |
| Other names:  | FcRI  |
| Format:       | StarBright Violet 790                       |
| Product Type: | Monoclonal Antibody                         |
| Clone:        | 10.1  |
| Isotype:      | lgG1  |
| Quantity:     | 100 TESTS/0.5ml                             |

# **Product Details**

| Applications                | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> . |                       |  |                     |  |  |
|-----------------------------|--|-----------------------|--|---------------------|--|--|
|                             | Yes No Not Determined Suggest  |                       |  |                     |  |  |
|                             | Flow Cytometry   |                       |  | Neat                |  |  |
|                             | Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.   |                       |  |                     |  |  |
| Target Species              | Human  |                       |  |                     |  |  |
| Species Cross<br>Reactivity | reactivity is derived fro  | ty and working condit | r, Rhesus Monkey<br>ions may vary between<br>laboratories, peer-revie<br>ors. Please refer to refe | wed publications or |  |  |
| Product Form                | Purified IgG conjugated to StarBright Violet 790 - liquid  |                       |  |                     |  |  |
| Max Ex/Em                   | Fluorophore  | Excitation Max (nm)   | Emission Max (nm)  |                     |  |  |
|                             | StarBright Violet 790  | 402                   | 782  |                     |  |  |
| Preparation                 | Purified IgG prepared supernatant  | by affinity chromatog | raphy on Protein A fron  | n tissue culture    |  |  |

| Buffer Solution             | Phosphate buffered saline  |
|-----------------------------|--|
| Preservative<br>Stabilisers | 0.09% Sodium Azide (NaN <sub>3</sub> )<br>1% Bovine Serum Albumin<br>0.1% Pluronic F68<br>0.1% PEG 3350<br>0.05% Tween 20  |
| Immunogen                   | Human monocytes  |
| External Database<br>Links  | UniProt:<br><u>P12314</u> <u>Related reagents</u><br>Entrez Gene:<br><u>2209</u> FCGR1A <u>Related reagents</u>  |
| Synonyms                    | FCG1, FCGR1, IGFR1   |
| Fusion Partners             | Spleen cells from immunised BALB/c mice were fused with cells of the mouse SP2/0-Ag14 myeloma cell line  |
| Specificity                 | Mouse anti Human CD64 antibody, clone 10.1 recognizes the human CD64 cell surface<br>antigen, a ~75 kDa glycoprotein expressed by monocytes. The antigen acts as a high<br>affinity receptor for human IgG, and is also known as FcRI.<br>Mouse anti Human CD64 antibody, clone 10.1 blocks binding of immunoglobulin to FcRI.   |
| Flow Cytometry              | Use 5µl of the suggested working dilution to label $10^6$ cells in $100µl$ . Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application.  |
