Datasheet: MCA837PE

Product Details

**Applications**
This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

**Target Species**
Bovine

**Species Cross Reactivity**
Reacts with: Sheep, Goat

**Product Form**
Purified IgG conjugated to R. Phycoerythrin (RPE) - lyophilized

**Reconstitution**
Reconstitute with 1 ml distilled water

**Max Ex/Em**

**Preparation**
Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

**Buffer Solution**
Phosphate buffered saline

**Preservative Stabilisers**
0.09% Sodium Azide
1% Bovine Serum Albumin
5% Sucrose

**External Database Links**
UniProt:
- [P31783](http://www.uniprot.org/uniprot/P31783)
- Related reagents
Spleen cells from an immunised mouse were fused with cells of the mouse NS1 myeloma cell line.

**Specificity**

Mouse anti Bovine CD8 antibody, clone CC63 reacts with the bovine CD8 antigen expressed by a subset of T lymphocytes. The antibody precipitates molecules of ~34 kDa and ~38 kDa under reducing conditions. Clone CC63 has been reported as being suitable for use on formalin dichromate (FD5) fixed paraffin embedded tissue with amplification and antigen retrieval techniques (Gutierrez et al. 1999).

**Flow Cytometry**

Use 10ul of the suggested working dilution to label 10⁶ cells in 100ul.

**References**

403-10.

**Storage**

Prior to reconstitution store at +4°C. Following reconstitution store at +4°C.

This product should be stored undiluted.

DO NOT FREEZE. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.

**Shelf Life**

12 months from date of reconstitution.

**Health And Safety Information**

**Regulatory**

For research purposes only
