

Datasheet: MCA874G

BATCH NUMBER 162577

Description:	MOUSE ANTI HUMAN MACROPHAGES
Specificity:	MACROPHAGES/MONOCYTES/GRANULOCYTES
Other names:	CALPROTECTIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	MAC387
Isotype:	lgG1
Quantity:	0.2 mg

Product Details

Applications

Reactivity

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry (1)				1/50 - 1/100
Immunohistology - Frozen	•			1/100 - 1/200
Immunohistology - Paraffin (2)	-			1/100 - 1/200
ELISA			•	
Immunoprecipitation			•	
Western Blotting			•	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

- (1)Membrane permeabilisation is required for this application. Bio-Rad recommends the use of Leucoperm[™] (Product Code <u>BUF09</u>) for this purpose.
- (2)This product requires protein digestion pre-treatment of paraffin sections e.g. trypsin or pronase.

Target Species	Human
Species Cross	Reacts with: Horse, Pig, Dog, Rabbit, Baboon, Bo

Reacts with: Horse, Pig, Dog, Rabbit, Baboon, Bovine, Guinea Pig, Rat, Cat, Cynomolgus monkey, Rhesus Monkey, Goat, Fallow deer, Pygmy hippopotamus, Mink, Marmoset **N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or

Product Form	Purified IgG - liquid	
Preparation	Purified IgG prepared by affinity chromatography on Protein A fr supernatant	rom tissue culture
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide	
Carrier Free	Yes	
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml	
Immunogen	Human monocytes.	
External Database Links	UniProt: P06702 Related reagents Entrez Gene: 6280 S100A9 Related reagents	
Synonyms	CAGB, CFAG, MRP14	
RRID	AB_321963	
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells myeloma cell line.	s of the mouse NS1
Specificity	Mouse anti Human macrophages, clone MAC387 recognizes molecule, an intracytoplasmic antigen comprised of a 12 kDa all beta chain. Although originally described as binding to epitopes and beta chains (Flavell et al. 1987) subsequent evidence indicated detects an epitope exclusively expressed on the beta chain (Godemonstrated by immunofluorescent and western blotting on both and transfected targets. In addition, Mouse anti Human macrophages detects the beta chain in complex with the alpha. The antigen recognized by Mouse anti Human macrophages, cloby granulocytes, monocytes and by tissue macrophages. Variable reported for staining brain macrophages and microglia. The epit be well conserved and the antibody is routinely used for the detection wide range of species.	pha chain and a 14 kDa common to both the alpha ates that the antibody ebeler et al. 1994) th naturally expressing hages, clone MAC387 one MAC387 is expressed alle results have been cope recognized appears to

personal communications from the originators. Please refer to references indicated for

further information.

Flow Cytometry	Use 10ul of the suggested working dilution to label 1x10 ⁶ cells in 100ul.

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at

-20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for

short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in

frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
