

Datasheet: MCA883FT

Description:	MOUSE ANTI HUMAN CD62E/CD62P:FITC
Specificity:	CD62E/CD62P
Other names:	E-SELECTIN/P-SELECTIN
Format:	FITC
Product Type:	Monoclonal Antibody
Clone:	1.2B6
Isotype:	IgG1
Quantity:	25 μg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry				Neat

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Human			
Species Cross	Reacts with: Pig			
Reactivity	reactivity is derive	ctivity and working conditied from testing within our landstanding from the originated.	aboratories, peer-re	eviewed publications or
Product Form	Purified IgG conju	gated to Fluorescein Isoth	niocyanate Isomer 1	(FITC) - liquid.
Max Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm)
	FITC	490	525	
Preparation	Purified IgG prepa	ared by affinity chromatog	raphy on Protein A	from tissue culture

Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Albumin		
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml		
Immunogen	Human E-Selectin (ELAM-1).		
External Database Links	UniProt: P16581 Related reagents P16109 Related reagents Entrez Gene:		
	6401 SELE Related reagents 6403 SELP Related reagents		
Synonyms	ELAM1, GMRP, GRMP		
RRID	AB_1102250		
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the NS1 mouse myeloma cell line.		
Specificity	Mouse anti Human CD62E/CD62P antibody, clone 1.2B6 recognizes the human CD62E and CD62P cell surface antigens.		
	Although initially thought to recognize only human CD62E, more recent data (<u>Goda et al.</u> 2003) shows that Mouse anti Human CD62E/CD62P antibody, clone 1.2B6 also recognizes human CD62P, binding to a common epitope shared by these members of the selectin family.		
	Clone 1.2B6 reacts with porcine E-selectin (CD62E) but not with porcine P-selectin (Stocker et al. 2000).		
Flow Cytometry	Use 10ul of the suggested working dilution to label 1 x 10^6 cells in 100ul.

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA883FT 10041
Regulatory	For research purposes only
