Datasheet: MCA90SBV570 BATCH NUMBER 100008292

| Description: | MOUSE ANTI HUMAN CD90:StarBright Violet 570 | | | |
|---------------|---|--|--|--|
| Specificity: | CD90 | | | |
| Other names: | THY1 | | | |
| Format: | StarBright Violet 570 | | | |
| Product Type: | Monoclonal Antibody | | | |
| Clone: | F15-42-1 | | | |
| Isotype: | lgG1 | | | |
| Quantity: | 100 TESTS/0.5ml | | | |
| | | | | |

Product Details

| Applications | This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> . | | | | | |
|----------------|--|-----------------------|----------------------------|----------------------|--|--|
| | Yes No Not Determined Suggested I | | | | | |
| | Flow Cytometry | | | Neat | | |
| | Where this product ha | is not been tested fo | r use in a particular tech | nnique this does not | | |
| | necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls. | | | | | |
| Target Species | Human | | | | | |
| Species Cross | Reacts with: Cynomolgus monkey | | | | | |
| Reactivity | N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. | | | | | |
| Product Form | Purified IgG conjugated to StarBright Violet 570 - liquid | | | | | |
| Max Ex/Em | Fluorophore | Excitation Max (nm |) Emission Max (nm) | | | |
| | StarBright Violet 570 | 404 | 571 | | | |
| Preparation | Purified IgG prepared supernatant | by affinity chromate | graphy on Protein A fror | m tissue culture | | |

| Buffer Solution | Phosphate buffered saline |
|-----------------------------|---|
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 0.1% Pluronic F68 0.1% PEG 3350 0.05% Tween 20 |
| Immunogen | Purified human brain Thy-1. |
| External Database Links | UniProt: <u>P04216</u> <u>Related reagents</u> Entrez Gene: <u>7070</u> THY1 <u>Related reagents</u> |
| Fusion Partners | Spleen cells from immunized BALB/c mice were fused with cells of the mouse NS-1 myeloma cell line. |
| Specificity | Mouse anti Human CD90 antibody, clone F15-42-1 recognizes the human CD90 cell surface antigen, a ~25 kDa glycoprotein homologous to rat Thy1. The antigen is expressed by a subset of CD34+ve cells in the bone marrow and by prothymocytes within the thymus. CD90 is also expressed extensively within the brain. Mouse anti Human CD90 antibody, clone F15-42-1 is routinely tested in flow cytometry on the MOLT4 cell line. |
| Flow Cytometry | Use 5µl of the suggested working dilution to label 10 ⁶ cells in 100µl. Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application. |
