Datasheet: MCA914T

BATCH NUMBER 148237

Description:	MOUSE ANTI HUMAN CD55
Specificity:	CD55
Other names:	DAF
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	BRIC216
Isotype:	IgG1
Quantity:	25 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation	▪			
Western Blotting (1)	▪			
Functional Assays (2)	▪			

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

(1) **Clone BRIC216 recognises human CD55 under non-reducing conditions**.

(2)**This product contains sodium azide, removal by dialysis is recommended prior to use in functional assays. Bio-Rad recommend the use of EQU003 for this purpose.**

Target Species	Human
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution	TRIS buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN_3) ≤100mM Glycine
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Human fibroblast cell line.
External Database Links	**UniProt:** P08174 Related reagents **Entrez Gene:** 1604 CD55 Related reagents
Synonyms	CR, DAF
RRID	AB_1102203
Specificity	**Mouse anti Human CD55 antibody, clone BRIC216** recognizes the CD55 antigen, a ~70 kDa glycoprotein also known as Decay Accelerating Factor (DAF). CD55 is distributed on erythrocytes and other circulating blood cells and also on cells in non-haemopoietic tissue particularly epithelium and endothelium. CD55 is also expressed at the foetal-maternal interfaces in placenta.CD55 has reduced expression on individuals with paroxysmal nocturnal haemoglobinuria. Mouse anti Human CD55 antibody, clone BRIC216 has a functional binding affinity to erythrocytes of 8.7×10^7 M^{-1}. The antigen is pronase and trypsin resistant and chymotrypsin sensitive. Mouse anti Human CD55 antibody, clone BRIC216 recognizes the consensus region 3 of the DAF molecule, which contains the functional site, and the antibody blocks the function of DAF.
Flow Cytometry	Use 10ul of the suggested working dilution to label 10^6 cells in 100ul

Storage	Store at +4°C or at -20°C if preferred. This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10511 available at: https://www.bio-rad-antibodies.com/SDS/MCA914T 10511
Regulatory	For research purposes only
