

Datasheet: MCA928AMO

BATCH NUMBER 148845

Description:	MOUSE IgG1 NEGATIVE CONTROL:Amethyst Orange		
Specificity:	MOUSE IgG1 NEGATIVE CONTROL		
Format:	Amethyst Orange		
Product Type:	Negative/Isotype Control		
Isotype:	lgG1		
Quantity:	0.1 mg		

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .						
	Flow Cytometry	Yes	No	Not Determined	Suggested Dilution		
		as not been test	tod for i	uso in a particular too	photos this doos not		
	Where this antibody has not been tested for use in a particular technique this does not						
	necessarily exclude its use in such procedures.						
*This antibody should be used at the same concentration as the test antibo					est antibody.		
Target Species	Negative Control						
Product Form	Purified IgG conjugated to Amethyst Orange - liquid						
Max Ex/Em	Fluorophore	Excitation Max	(nm) l	Emission Max (nm)			
	Amethyst Orange	405	. ,	540			
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant						
Buffer Solution	Phosphate buffered saline						
Preservative	0.09% Sodium Azide	(NaN ₂)					
Stabilisers	1% Bovine Serum Albumin						
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml						
Specificity	Mouse IgG1 negative control is negative by flow cytometry on all human cells and cell lines tested. Further tests have also shown that this reagent is also suitable for use as a						

negative control with bovine (Maslanka *et al*, 2012), ovine, porcine (<u>Kapetanovic *et al*, 2012</u>), equine (<u>Jacks *et al*, 2007</u>), canine (<u>Maiolini *et al*, 2012</u>), lapine (<u>Pakandl *et al*, 2008</u>) and guinea-pig tissues.

This reagent recognizes a rat cell surface marker, and therefore cannot be used as a negative control in this species.

Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells or 100ul whole blood

Storage	Store at +4°C or at -20°C if preferred.
	This product should be stored undiluted.

Storage in frost free freezers is not recommended. This product is photosensitive and should be protected from light. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. Guarantee 12 months from date of despatch **Health And Safety** Material Safety Datasheet documentation #10041 available at: Information https://www.bio-rad-antibodies.com/SDS/MCA928AMO 10041 Regulatory For research purposes only North & South Tel: +1 800 265 7376 Worldwide Tel: +44 (0)1865 852 700 Tel: +49 (0) 89 8090 95 21 Europe Fax: +44 (0)1865 852 739 Fax: +1 919 878 3751 Fax: +49 (0) 89 8090 95 50 America Email: antibody_sales_us@bio-rad.com Email: antibody_sales_uk@bio-rad.com Email: antibody_sales_de@bio-rad.com To find a batch/lot specific datasheet for this product, please use our online search tool at: bio-rad-antibodies.com/datasheets 'M360091:191028' Printed on 29 Feb 2024
