

Datasheet: MCA928B BATCH NUMBER 163387

Description:	MOUSE IgG1 NEGATIVE CONTROL:Biotin				
Specificity:	MOUSE IgG1 NEGATIVE CONTROL				
Format:	Biotin				
Product Type:	Negative/Isotype Control				
lsotype:	lgG1				
Quantity:	100 TESTS				

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry	-			*	
	Where this antibody has necessarily exclude its u the antibody for use in th reagents.	ise in sucł	n procedui	es. *It is recommende	ed that the user dilutes	
Target Species	Negative Control					
Product Form	Purified IgG conjugated to Biotin - liquid					
Preparation	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant					
Buffer Solution	Phosphate buffered salir	ne				
Preservative	0.09% Sodium Azide					
Stabilisers	1% Bovine Serum All	bumin				
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml					
RRID	AB_322261					
Specificity	Mouse IgG1 negative o	control is	negative b	y flow cytometry on a	ll human cells and cell	

lines tested. Further tests have also shown that this reagent is also suitable for use as a negative control with bovine (Maslanka *et al*, 2012), ovine, porcine (<u>Kapetanovic *et al*</u>, 2012), equine (<u>Jacks *et al*, 2007), canine (<u>Maiolini *et al*</u>, 2012), lapine (<u>Pakandl *et al*</u>, 2008) and guinea-pig tissues.</u>

This reagent recognizes a rat cell surface marker, and therefore cannot be used as a negative control in this species.

Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells or 100ul whole blood.

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at				
	-20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for				
	short term use (up to 4 weeks) and store the remaining aliquots at -20°C.				
	Avoid repeated freezing and thawing as this may denature the antibody. Storage in				
	frost-free freezers is not recommended.				
Guarantee	12 months from date of despatch				
Health And Safety	Material Safety Datasheet documentation #10041 available at:				
Information	https://www.bio-rad-antibodies.com/SDS/MCA928B				
	10041				
Regulatory	For research purposes only
