

# Datasheet: OBT0990 BATCH NUMBER 150785

Description:	RABBIT ANTI HEPATITIS B SURFACE ANTIGEN
Specificity:	HEPATITIS B SURFACE ANTIGEN
Other names:	HBsAg
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 ml

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal							
	communications from the originators. Please refer to references indicated for further							
	information. For general protocol recommendations, please visit <u>www.bio-</u>							
	rad-antibodies.com/protocols.

Target Species	Viral							
Product Form	Purified IgG - liquid							
Antiserum Preparatio	n Antisera to Hepatitis B we purified antigen. Purified on Protein A.							
Buffer Solution	Phosphate buffered salin	e						
Preservative Stabilisers	0.1% Sodium Azide (NaN	۷ <sub>3</sub> )						

Approx. Protein Concentrations	IgG concentration 4.0 mg/ml				
Immunogen	Hepatitis B subtypes ad and ay.				
RRID	AB_609657				
Specificity	<b>Rabbit anti hepatitis B surface antigen antibody</b> recognizes Hepatitis B surface antigen, recognizing subtypes ad and ay. Hepatitis B virus is a major causative agent of acute and chronic liver disease in humans.				
	Hepatitis B surface antigen (HBsAg) is a protein component of the viral envelope, which is expressed predominantly in the cytoplasm of infected hepatocytes.

Storage	Store at +4°C or at -20°C if preferred. This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.				
Guarantee	12 months from date of despatch				
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/OBT0990 10040				
Regulatory	For research purposes only
