

Datasheet: OBT0990 **BATCH NUMBER 156500**

| Description: | RABBIT ANTI HEPATITIS B SURFACE ANTIGEN | | |
|---------------|---|--|--|
| Specificity: | HEPATITIS B SURFACE ANTIGEN | | |
| Other names: | HBsAg | | |
| Format: | Purified | | |
| Product Type: | Polyclonal Antibody | | |
| Isotype: | Polyclonal IgG | | |
| Quantity: | 1 ml | | |
| | | | |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.biorad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry | | | | |
| Immunohistology - Frozen | • | | | |
| Immunohistology - Paraffin | • | | | |
| ELISA | • | | | 1/10,000 |
| Immunoprecipitation | | | • | |
| Western Blotting | | | • | |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

| Target Species | Viral |
|----------------|-----------------------|
| Product Form | Purified IgG - liquid |

Antiserum Preparation Antisera to Hepatitis B were raised by repeated immunisation of rabbits with highly

purified antigen. Purified IgG was prepared from whole serum by affinity chromatography

on Protein A.

| Buffer Solution | Phosphate buffered saline |
|-----------------------------|---------------------------------------|
| Preservative Stabilisers | 0.1% Sodium Azide (NaN ₃) |

| Approx. Protein Concentrations | IgG concentration 4.0 mg/ml |
|----------------------------------|---|
| Immunogen | Hepatitis B subtypes ad and ay. |
| RRID | AB_609657 |
| Specificity | Rabbit anti hepatitis B surface antigen antibody recognizes Hepatitis B surface antigen, recognizing subtypes ad and ay. Hepatitis B virus is a major causative agent of acute and chronic liver disease in humans. |
| | Hepatitis B surface antigen (HBsAg) is a protein component of the viral envelope, which is expressed predominantly in the cytoplasm of infected hepatocytes. |

| Storage | Store at +4°C or at -20°C if preferred. This product should be stored undiluted. Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. |
| Guarantee | 12 months from date of despatch |
| Health And Safety Information | Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/OBT0990 10040 |
| Regulatory | For research purposes only |
