

Datasheet: OBT1090G

Description:	MOUSE ANTI HUMAN INSULIN-LIKE GROWTH FACTOR I
Specificity:	IGF-I
Other names:	INSULIN-LIKE GROWTH FACTOR I
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	M23
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
ELISA			▪	
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Rabbit

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Preparation

Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers	0.1% Sodium Azide (NaN ₃) 0.1% Bovine Serum Albumin
Approx. Protein Concentrations	IgG concentration 0.1mg/ml
External Database Links	<p>UniProt: P05019 Related reagents</p> <p>Entrez Gene: 3479 IGF1 Related reagents</p>
Synonyms	IBP1
RRID	AB_620169
Specificity	<p>Mouse anti Human insulin-like growth factor 1 antibody, clone M23 recognizes human IGF-1, also known as Mechano growth factor, Somatomedin-C or Insulin-like growth factor I. IGF-1 is a 195 amino acid ~ kDa secreted peptide bearing an N-terminal signal peptide and a propeptide together accounting for the N-terminal 48 amino acid residues. There is a second C-terminal propeptide region, known as the 'E-peptide', also cleaved during processing to yield the 70 amino acid active secreted IGF-1 peptide. IGF-1 is functionally related to insulin but with a higher growth-promoting activity.</p> <p>Mouse anti Human insulin-like growth factor 1 antibody, clone M23 has not been cross-adsorbed and may react with similar peptides from related species.</p>

Storage	<p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
