

Datasheet: OBT1170

Description:	MOUSE ANTI CD309
Specificity:	CD309
Other names:	VEGFR 2
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	CH-11
Isotype:	IgG1
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Paraffin (1)	▪			
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) This product requires antigen retrieval using heat treatment prior to staining of paraffin sections. EDTA pH8.0 is recommended for this purpose.

Target Species	Mouse
Species Cross Reactivity	Reacts with: Human N.B. Antibody reactivity and working conditions may vary between species.
Product Form	Purified IgG - liquid
Preparation	Purified IgG prepared by affinity chromatography on Protein A
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.1% Sodium azide
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Recombinant fragment corresponding to amino acids 1158 to 1345 within the intracellular region of mouse CD309.

Synonyms	Flk1, Flk-1, FLK1
RRID	AB_2132486
Specificity	Mouse anti CD309, Clone CH-11 , recognizes both mouse and human vascular endothelial growth factor receptor 2 (VEGF R2), also known as FLK-1 or Kinase insert domain receptor. CD309 is one of three VEGF receptor kinases which play an important role in angiogenesis. VEGF receptors are characterised by a cytoplasmic split-kinase domain and seven extracellular immunoglobulin domains.
Histology Positive Control Tissue	Placenta
Western Blotting	Clone CH-11 detects bands of approximately 200kDa and 230kDa in HUVEC cell lysates.

Storage	<p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
