

Datasheet: OBT1404

| Description:  | SHEEP ANTI HUMAN ALDOSTERONE |
|---------------|------------------------------|
| Specificity:  | ALDOSTERONE                  |
| Format:       | Serum                        |
| Product Type: | Polyclonal Antibody          |
| Isotype:      | Polyclonal IgG               |
| Quantity:     | 1 ml                         |
|               |                              |

#### **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             |     |    |                |                    |
| Immunohistology - Frozen   |     |    |                |                    |
| Immunohistology - Paraffin |     |    |                |                    |

| Western Blotting           |     |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**Sheep anti Human aldosterone antibody** recognizes human aldosterone. Aldosterone is a steroid hormone produced by the adrenal gland. It has a number of functions relating to the kidney nephron including the balance of sodium and potassium, and increasing blood pressure.

|                                  | Aldosterone is involved in two disorders: Addison's disease, where it is reduced, and Conn Syndrome, were it is it found in increased amounts.  |
|----------------------------------|---|
| Storage                          | This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. |
|                                  | Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.   |
| Guarantee                        | 12 months from date of despatch   |
| Health And Safety<br>Information | Material Safety Datasheet documentation #10081 available at: 10081: https://www.bio-rad-antibodies.com/uploads/MSDS/10081.pdf   |
| Regulatory                       | For research purposes only  |
