

Datasheet: OBT1524

BATCH NUMBER 164066

Description:	HUMAN IgM PURIFIED IMMUNOGLOBULIN
Name:	IgM
Format:	Purified
Product Type:	Purified Protein
Isotype:	IgM
Quantity:	2 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	■			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only.

Target Species	Human
Product Form	Purified Protein - liquid
Preparation	Purified IgM prepared by delipidation, selective precipitation and tandem molecular sieve chromatography.
Buffer Solution	TRIS buffered saline
Preservative Stabilisers	0.1% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	1.0 mg/ml

RRID	AB_615619
Product Information	Human IgM Purified Immunoglobulin is purified IgM from myeloma serum. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-human serum and anti-human IgM (μ chain specific). No reaction was observed against anti-human IgG F(c). Some light chain cross reactivity will occur with human IgG.

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	<p>Material Safety Datasheet documentation #10327 available at: https://www.bio-rad-antibodies.com/SDS/OBT1524</p> <p>10327</p> <p>Donor material tested and found negative for HIV antibody, HBsAg, HCV antibody, HIV1 antigen, HTLV1 and 2 antibodies and Syphilis.</p> <p>As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious.</p>
