

Datasheet: OBT1527

BATCH NUMBER 158975

| Description: | GOAT ANTI MOUSE IgG Fab AFFINITY PURIFIED | | |
|----------------------|---|--|--|
| Specificity: | IgG (Fab) | | |
| Format: | Purified | | |
| Product Type: | Polyclonal Antibody | | |
| Isotype: | Polyclonal IgG | | |
| Quantity: | 1 ml | | |
| | | | |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| ELISA | • | | | |
| Western Blotting | - | | | |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species | Mouse |
|----------------|-----------------------|
| Product Form | Purified IgG - liquid |

Antiserum Preparation Antisera to mouse Fab fragment were raised by repeated immunisations of goats with

highly purified antigen. Purified IgG was prepared from whole serum by affinity

chromatography.
