

Datasheet: OBT1684

Description:	RABBIT ANTI PHOSPHOSERINE
Specificity:	PHOSPHOSERINE
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1/1000 - 1/2000
Immunoprecipitation	▪			
Western Blotting	▪			1/500

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Chemical
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to phosphoserine was raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate Buffered Saline
Preservative Stabilisers	50% Glycerol
Approx. Protein Concentrations	IgG concentration 0.25 mg/ml
Immunogen	Keyhole Limpet Haemocyanin - phosphoserine conjugates
RRID	AB_619524

Specificity	Rabbit anti Phosphoserine antibody recognises phosphoserine, peptidyl-phosphoserine, and serine-phosphorylated proteins. Rabbit anti Phosphoserine antibody does not cross react with ATP, phosphotyrosine, peptidyl phosphothreonine and serine. Slight cross reactivity with free phosphothreonine is observed. Phosphorylation and dephosphorylation of intracellular proteins occurs in response to extracellular signals. In certain disease states such as cancer, abnormal protein phosphorylation can occur.
Storage	Store at -20°C only. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10106 available at: https://www.bio-rad-antibodies.com/SDS/OBT1684 10106
Regulatory	For research purposes only
