Datasheet: OBT1866

Description:	RECOMBINANT HERPES SIMPLEX VIRUS 2 gG
Name:	HERPES SIMPLEX VIRUS 2 gG
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

Recombinant Protein - liquid

Buffer Solution

50mM Phosphate
50mM DTT

Preservative Stabilisers

None present

Approx. Protein Concentrations

Total protein concentration 1.0 mg/ml

Product Information

Recombinant Herpes simplex Virus 2 gG is a *S. cerevisiae*-derived recombinant protein corresponding to amino acids 343-649 of herpes simplex virus 2 glycoprotein G, coupled to human superoxide dismutase.

Purity

Approximately 95% by SDS PAGE

Storage

Store at -20^{o}C only.
Storage in frost-free freezers is not recommended.
This product should be stored undiluted. Avoid repeated freezing and thawing as this may

	denature the protein. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	18 months from date of despatch.
