

## Datasheet: OBT1996GX

<b>Description:</b>	ANTIGEN DOWN ASSAY DILUENT
<b>Name:</b>	ANTIGEN DOWN ASSAY DILUENT
<b>Format:</b>	Ready To Use
<b>Product Type:</b>	Accessory Reagent
<b>Quantity:</b>	1000 ml

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**Product Form** Ready to use - liquid

**Buffer Solution** Phosphate buffered saline

**Preservative Stabilisers** 0.17% Proclin™ 300  
<5% EDTA

**Product Information** **Antigen down assay diluent** is specifically formulated for testing plasma and serum samples in antigen down ELISA formats. Proprietary additives, including EDTA, have been incorporated into this diluent that eliminate the risk of plasma sample clots in the ELISA plate well while also minimizing non-specific binding interactions associated with these complex matrices.

**Storage** Store at +4°C. DO NOT FREEZE.  
This product should be stored undiluted.

**Guarantee** Guaranteed until date of expiry. Please see product label.

**Acknowledgements** Proclin™ 300 is a trademark of The Dow Chemical Company (“Dow”) or an affiliated company of Dow.
