

Datasheet: PAP003

Description:	RECOMBINANT CHICKEN INTERLEUKIN-6
Name:	IL-6
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA			▪	
Functional Assays	▪			
In vitro Assay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Chicken
Product Form	Purified His-tagged recombinant protein expressed in <i>E.coli</i> - liquid
Preparation	Recombinant protein prepared from <i>E. coli</i> .
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present
Approx. Protein Concentrations	500 ug/ml

Product Information **Recombinant chicken interleukin-6** is a histidine tagged molecule produced in *E. coli*. Interleukin-6 (IL-6) is a multifunctional pro-inflammatory cytokine, produced by a wide variety of cells including B lymphocytes, T lymphocytes, monocytes/macrophages, fibroblasts and endothelial cells. It plays a major role in the regulation of immune responses, haematopoiesis and the induction of acute phase responses.

Recombinant chicken interleukin-6 induces corticosterone secretion *in vivo* and induces proliferation of the IL-6 dependant murine hybridoma cell line 7TD1 *in vitro* ([Marais et al. 2011](#)).

Recombinant chicken interleukin-6 (**PAP003**) is the immunogen used to produce Bio-Rad chicken IL-6 antibody ([AHP942Z](#)).

Protein Molecular Weight 23.2 kD

Purity >85% by Ni Chelate chromatography

Storage

Store at -20°C only.
Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 3 months from date of despatch
