

Datasheet: PAP004

BATCH NUMBER 160316

Description:	RECOMBINANT CHICKEN INTERFERON ALPHA
Name:	IFN ALPHA
Other names:	INTERFERON ALPHA
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA			▪	
Functional Assays	▪			

Where this protein has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Chicken
Product Form	Purified recombinant protein expressed in <i>E.coli</i> - liquid.
Preparation	Recombinant protein prepared from <i>E.coli</i>
Buffer Solution	0.05M Sodium Acetate 1M Sodium Chloride 0.01M Tris-HCl 2M Urea 10mM Beta-Mercaptoethanol
Preservative Stabilisers	None present
Approx. Protein Concentrations	Total protein concentration 1.0 mg/ml

Product Information **Recombinant Chicken interferon alpha** (IFN alpha) shares structural and biological properties with mammalian IFN1. Recombinant chicken IFN alpha (rChIFNa) has been shown to act as a highly potent anti-viral agent *in vitro* ([Schultz, U. et al. 1995](#)). rChIFNa also resulted in a noticeable delay in the progression of tumors in CC progressor chickens infected with Rous Sarcoma Virus, when administered intravenously ([Plachy, J. et al. 1999](#)).

Recombinant chicken interferon alpha is the immunogen used to produce the polyclonal Rabbit anti Chicken [interferon alpha antibody](#).

Protein Molecular Weight

19 kD

Activity

1x10⁷units/mg

Purity

>85% by Ni chelate chromatography

Storage Store at -20°C only.
Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the protein.
This product should be stored undiluted.
Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 3 months from date of despatch
