

## Datasheet: PAP004

<b>Description:</b>	RECOMBINANT CHICKEN INTERFERON ALPHA
<b>Name:</b>	IFN ALPHA
<b>Other names:</b>	INTERFERON ALPHA
<b>Format:</b>	Rec. Protein
<b>Product Type:</b>	Recombinant Protein
<b>Quantity:</b>	50 µg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA			▪	
Functional Assays	▪			

Where this protein has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Chicken
<b>Product Form</b>	Purified recombinant protein expressed in <i>E.coli</i> - liquid.
<b>Preparation</b>	Recombinant protein prepared from <i>E.coli</i>
<b>Source</b>	<i>E.coli</i>
<b>Buffer Solution</b>	0.05M Sodium Acetate 1M Sodium Chloride 0.01M Tris-HCl 2M Urea 10mM Beta-Mercaptoethanol
<b>Preservative Stabilisers</b>	None present
<b>Approx. Protein Concentrations</b>	Total protein concentration 1.0 mg/ml

IFNA3

[Related reagents](#)**Product Information**

**Recombinant Chicken interferon alpha** (IFN alpha) shares structural and biological properties with mammalian IFN1. Recombinant chicken IFN alpha (rChIFNa) has been shown to act as a highly potent anti-viral agent *in vitro* ([Schultz, U. et al. 1995](#)). rChIFNa also resulted in a noticeable delay in the progression of tumors in CC progressor chickens infected with Rous Sarcoma Virus, when administered intravenously ([Plachy, J. et al. 1999](#)).

Recombinant chicken interferon alpha is the immunogen used to produce the polyclonal Rabbit anti Chicken [interferon alpha antibody](#).

**Protein Molecular Weight**

19 kD

**Activity**1x10<sup>7</sup>units/mg**Purity**

&gt;85% by Ni chelate chromatography

**Storage** Store at -20°C only.  
Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the protein.  
This product should be stored undiluted.  
Should this product contain a precipitate we recommend microcentrifugation before use.
