

Datasheet: PBP016A

BATCH NUMBER 148256

Description:	RECOMBINANT BOVINE INTERLEUKIN-10
Name:	IL-10
Other names:	CYTOKINE SYNTHESIS INHIBITORY FACTOR
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	25 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	■			
Functional Assays			■	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bovine
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 100µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	10% Trehalose
External Database Links	UniProt:

Entrez Gene:[281246](#)

IL10

Product Information	Recombinant Bovine Interleukin-10 (IL-10) , also known as cytokine synthesis inhibitory factor (CSIF), is a secreted anti inflammatory cytokine produced primarily by monocytes. IL-10 inhibits the synthesis of pro-inflammatory cytokines such as IFN γ , IL-2, IL-4, GM-CSF and TNF α . This product is a purified recombinant cytokine corresponding to a 160 amino acid sequence of bovine IL-10 and is suitable for use as standard in the development of ELISA assays.
Protein Molecular Weight	18.6 kDa
Purity	>95% by SDS PAGE
References	1. Stabel, J.R. <i>et al.</i> (2021) Comparative cellular immune responses in calves after infection with <i>Mycobacterium avium</i> . subsp. <i>paratuberculosis</i> ., <i>M. avium</i> . subsp. <i>avium</i> ., <i>M. kansasii</i> . and <i>M. bovis</i> .. Vet Immunol Immunopathol. 237: 110268.
Storage	Prior to reconstitution store at +4°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10591 available at: https://www.bio-rad-antibodies.com/SDS/PBP016A 10591
Regulatory	For research purposes only
