

Datasheet: PBP023

BATCH NUMBER 151210

Description:	RECOMBINANT BOVINE CXCL9
Name:	CXCL9
Other names:	MIG
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bovine
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Preservative Stabilisers	10% Trehalose
External Database Links	UniProt: A9QWP9 Related reagents Entrez Gene:

Product Information **Recombinant Bovine CXCL9** is a recombinant protein corresponding to aa 22 - 125 of bovine CXCL9, also known as MIG (monokine induced by Interferon-gamma). CXCL9 is a member of the CXC family of chemokine receptors, secreted by interferon stimulated monocytes, macrophages and endothelial cells, which signals through binding to CD183 (CXCR3). CXCL9 acts as a Th1 (type 1 helper T) cell chemoattractant and plays a role in the growth, activation and movement of cells associated with immune and inflammatory responses, and in tumour growth inhibition.

Protein Molecular Weight 11.9 kDa

Purity >95% by SDS PAGE analysis

ELISA This reagent may be used as a standard in a sandwich ELISA assay in conjunction with [AHP2369](#) as a coating antibody and [AHP2369B](#) as a detection antibody.

Storage Prior to reconstitution store at -20°C.
After reconstitution store at -20°C.
Storage in frost-free freezers is not recommended. This product should be stored undiluted.

Guarantee 12 months from date of despatch
