

Datasheet: PBP032

BATCH NUMBER 143747

| | |
|----------------------|------------------------------------|
| Description: | RECOMBINANT BOVINE INTERFERON BETA |
| Name: | IFN BETA |
| Format: | Rec. Protein |
| Product Type: | Recombinant Protein |
| Quantity: | 5 µg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|------------------|-----|----|----------------|--------------------|
| ELISA | ▪ | | | |
| Western Blotting | ▪ | | | |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| | |
|---------------------------------|--|
| Target Species | Bovine |
| Product Form | Purified recombinant protein - lyophilized |
| Reconstitution | Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. |
| Preparation | Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | 10% Trehalose |
| Product Information | Recombinant Bovine interferon beta (IFNβ) is a recombinant protein of approximately 19.4 kDa consisting of a sequence of 164 aa. |

Bovine IFN β is a type I interferon belonging to alpha/beta interferon family and involved in defense against viral and bacterial infections.

| | |
|--------------------------------------|--|
| Protein Molecular Weight | 19.4 kDa |
| Purity | >95% by SDS PAGE analysis |
| ELISA | This reagent may be used as a standard in a sandwich ELISA assay in conjunction with AHP2371 as a coating antibody and AHP2371B as a detection antibody. |
| Storage | Prior to reconstitution store at -20°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. |
| Guarantee | 12 months from date of despatch |
| Health And Safety Information | Material Safety Datasheet documentation #10591 available at: https://www.bio-rad-antibodies.com/SDS/PBP032 10591 |
| Regulatory | For research purposes only |
