

Datasheet: PBP036

BATCH NUMBER 162928

Description:	RECOMBINANT BOVINE LEUKEMIA INHIBITORY FACTOR
Name:	LEUKEMIA INHIBITORY FACTOR
Other names:	LIF
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bovine
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	10% Trehalose
External Database Links	UniProt:

Entrez Gene:

[280840](#) LIF [Related reagents](#)

Product Information **Recombinant Bovine leukemia inhibitory factor (LIF)** is a recombinant protein corresponding to aa 23-202 of native bovine LIF.

Bovine LIF is a chemokine belonging to the IL-6 cytokine family. LIF inhibits differentiation in normal stem cells, but in leukemic myeloid cells, induces differentiation thereby preventing further growth.

Protein Molecular Weight 19.8 kDa

Purity >95% by SDS PAGE analysis

ELISA This reagent may be used as a standard in a sandwich ELISA assay in conjunction with [AHP2381](#) as a coating antibody and [AHP2381B](#) as a detection antibody.

Storage Prior to reconstitution store at -20°C.
After reconstitution store at -20°C.
Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein.

Guarantee 12 months from date of despatch
