

Datasheet: PBP038

**BATCH NUMBER 142837**

<b>Description:</b>	RECOMBINANT BOVINE MIP-1 ALPHA
<b>Name:</b>	MIP-1 ALPHA
<b>Other names:</b>	CCL3
<b>Format:</b>	Rec. Protein
<b>Product Type:</b>	Recombinant Protein
<b>Quantity:</b>	5 µg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Bovine
<b>Product Form</b>	Purified recombinant protein - lyophilized
<b>Reconstitution</b>	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
<b>Preparation</b>	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	10% Trehalose
<b>External Database Links</b>	<b>UniProt:</b>

**Entrez Gene:**

[282170](#)   CCL3   [Related reagents](#)

---

**Synonyms**      SCYA3

---

**Product Information**    **Recombinant Bovine MIP-1 alpha** , also known as CCL3, is a recombinant protein corresponding to the 24 -93 amino acid sequence of native bovine MIP-1 alpha.

MIP-1 alpha, belonging to the CC chemokine family, plays a critical role in hematopoiesis and is shown to signal through the chemokine receptors CCR1, CCR4 and CCR5.

MIP-1 alpha is also involved in host defence against invading pathogens, acting as a regulator of activation and trafficking of inflammatory cells, such as macrophages, NK cells, granulocytes, dendritic cells and T-cells.

---

**Protein Molecular Weight**      7.8 kDa

---

**Purity**                      >95% by SDS PAGE analysis

---

**ELISA**                      This reagent may be used as a standard in a sandwich ELISA assay in conjunction with [AHP2996](#) as a coating antibody and [AHP2996B](#) as a detection antibody

---

**Storage**                    Prior to reconstitution store at -20°C.  
After reconstitution store at -20°C.  
Storage in frost-free freezers is not recommended. This product should be stored undiluted.

---

**Guarantee**                12 months from date of despatch

---

**Health And Safety Information**    Material Safety Datasheet documentation #10591 available at:
