

Datasheet: PDP009

BATCH NUMBER 165608

Description:	RECOMBINANT DOG IFN ALPHA
Name:	IFN ALPHA
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Dog
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Source	<i>Pichia pastoris</i>
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	10% Trehalose
Product Information	Recombinant Dog interferon alpha (IFNα) is a recombinant protein of approximately

19.0 kDa corresponding to a 164 amino acid sequence from native canine IFN α .

Canine IFN α is a type I interferon belonging to the alpha/beta interferon family. IFN α is produced by macrophages and involved in defence against viral infections.

Protein Molecular Weight	19.0 kDa
---------------------------------	----------

Purity	>95% by SDS PAGE analysis
---------------	---------------------------

ELISA	This reagent may be used as a standard in a sandwich ELISA assay in conjunction with AHP2976 as a coating antibody and AHP2976B as a detection antibody.
--------------	--

Storage	Prior to reconstitution store at -20°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10591 available at: https://www.bio-rad-antibodies.com/SDS/PDP00910591
--------------------------------------	--

Regulatory	For research purposes only
