

Datasheet: PHP046

Description:	RECOMBINANT HUMAN INTERLEUKIN-7
Name:	IL-7
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	10 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			0.2 - 0.4 ng/well
Western Blotting	▪			1.5 - 3.0 ng/lane
Functional Assays	▪			0.1ng/ml - 10ng/ml

Where this protein has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the protein for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified recombinant protein expressed in <i>E. coli</i> - lyophilised
Reconstitution	<p>Reconstitute with 0.1 ml distilled water. For extended storage the addition of 0.1% BSA is recommended.</p> <p>Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.</p>
Buffer Solution	10mM Acetic Acid
Preservative Stabilisers	None present
Carrier Free	Yes
Endotoxin Level	< 0.1 ng/ug
Approx. Protein Concentrations	Total protein concentration 0.1 mg/ml after reconstitution
External Database Links	<p>UniProt:</p> <p>P13232 Related reagents</p>

Product Information **Recombinant human IL-7** is a 17.4 kDa protein comprised of 153 amino acids corresponding to the full-length mature sequence.

IL-7 is a potent lymphoid cell growth factor acting on Pre-B, Pro-B and early T cells. In a dose dependent cell proliferation assay using 2E8 cells this product shows a specific activity of > 2 x 10⁶ units/mg.

Recombinant human IL-7 is recognized by Rat anti Human IL-7 antibody clone [BVD10-40F6](#) in ELISA.

Protein Molecular Weight 17.5kDa (153 amino acids)

Purity >98 % by SDS PAGE and HPLC

ELISA Recombinant human IL-7 may be used as a standard for ELISA applications with either [anti-Human IL-7 \(purified\)](#) or [anti-Human IL-7 \(biotin conjugate\)](#).

Western Blotting Recombinant human IL-7 may be used as the positive control for western blotting applications with either [anti-Human IL-7 \(purified\)](#) or [anti-Human IL-7 \(biotin conjugate\)](#).

Storage Prior to reconstitution store at -20°C. Following reconstitution store at -20°C.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the protein. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee Guaranteed for 3 months from the date of reconstitution or until the date of expiry, whichever comes first. Please see label for expiry date.
