

Datasheet: PHP135

BATCH NUMBER 169178

Description:	PURIFIED HUMAN BETA 2 MICROGLOBULIN
Name:	BETA 2 MICROGLOBULIN
Format:	Purified
Product Type:	Purified Protein
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Human beta -2 microglobulin - lyophilized
Reconstitution	Reconstitute with 1.0ml sterile PBS Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Human beta-2 microglobulin was prepared from urine from patients with renal tubular proteinuria.
Preservative Stabilisers	None present

Entrez Gene:

Product Information **native beta-2 microglobulin** is a component of MHC class I molecules, which are present on all nucleated cells. Levels of beta-2 microglobulin can be used to assess renal function in kidney transplant recipients. Also known as B2M, it has been suggested that this protein can be used as a prognostic marker for HIV infection.

Protein Molecular Weight 12 kDa

Purity >98% by SDS-PAGE

References 1. Miles, J.J. *et al.* (2018) Peptide mimic for influenza vaccination using nonnatural combinatorial chemistry. [J Clin Invest. 128 \(4\): 1569-80.](#)

Storage Store at +4°C. DO NOT FREEZE.
Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee Guaranteed for 3 months from the date of reconstitution or until the date of expiry, whichever comes first. Please see label for expiry date.

Health And Safety Information Material Safety Datasheet documentation #10268 available at:
<https://www.bio-rad-antibodies.com/SDS/PHP135>
10268

Donor material tested and found negative for HIV1 and 2 antibodies, HBsAg, HCV antibodies and HIV antigen P24.

As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious
