

# Datasheet: PHP211 BATCH NUMBER 153234

Description:	RECOMBINANT HUMAN DEFENSIN BETA 3		
Name:	DEFENSIN BETA 3		
Other names:	BD-3		
Format:	Rec. Protein		
Product Type:	Recombinant Protein		
Quantity:	20 μg		

## **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
ELISA	•			0.2 - 0.4ng/well
Western Blotting	•			1.5 - 3.0ng/lane
Functional Assays	•			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 ul 10mM acetic acid. Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.  N.B. For long term storage, further dilutions may be made in buffer containing 0.1% bovine serum albumin (BSA).
Preparation	Purified recombinant defensin beta 3 expressed in <i>E.coli</i>
Preservative Stabilisers	None present
Carrier Free	Yes

Endotoxin Level	< 1.0 EU/ug
Approx. Protein Concentrations	1.0 mg/ml after reconstitution
External Database Links	UniProt: P81534 Related reagents
	Entrez Gene: <u>55894</u> DEFB103B Related reagents
Synonyms	BD3, DEFB103, DEFB3
Product Information	Defensin beta 3 (BD-3) is a cationic non-haemolytic antimicrobial peptide and member of the beta-defensin family, highly expressed by skin and tonsils, which plays an important role in the innate immune response to potentially pathogenic microbes, including multiresistant <i>S. aureus</i> and vancomycin-resistant <i>E. faecium</i> .
Protein Molecular Weight	5.1 kDa (45 amino acid residues)
Activity	Exhibits chemotactic activity on monocytes
Purity	>98% by SDS PAGE and HPLC analysis
ELISA	PHP211 may be used in ELISA applications with <u>AHP1802</u> .
Western Blotting	PHP211 may be used under reducing or non-reducing western blotting conditions with <a href="https://example.com/AHP1802"><u>AHP1802</u></a> .
References	1. Boesch, A.W. <i>et al.</i> (2013) A Multiplexed Assay to Detect Antimicrobial Peptides in Biological Fluids and Cell Secretions. <u>J Immunol Methods. pii: S0022-1759(13)00241-X.</u>
Storage	Prior to reconstitution store at -20°C.  After reconstitution store at -20°C.  Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	Guaranteed for 3 months from the date of reconstitution or until the date of expiry, whichever comes first. Please see label for expiry date.
Health And Safety Information	Material Safety Datasheet documentation #10268 available at: <a href="https://www.bio-rad-antibodies.com/SDS/PHP211">https://www.bio-rad-antibodies.com/SDS/PHP211</a> 10268
Regulatory	For research purposes only
