

Datasheet: PHP238

Description:	NATIVE HUMAN TRANSFERRIN
Name:	TRANSFERRIN
Format:	Purified
Product Type:	Purified Protein
Quantity:	100 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified protein from human plasma - lyophilized
Reconstitution	Reconstitute to 10 mg/ml in sterile deionized water
Preservative Stabilisers	None
Endotoxin Level	<1.0 EU per 1ug of the protein by the LAL method
External Database Links	<p>UniProt: P02787 Related reagents</p> <p>Entrez Gene: 7018 TF Related reagents</p>
Protein Molecular Weight	76-81 kDa under reducing conditions
Purity	>90% by SDS-PAGE under reducing conditions and visualised by silver stain.
Storage	<p>Store at +4°C or at -20°C if preferred.</p> <p>Storage in frost-free freezers is not recommended.</p> <p>This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before</p>

use.

Guarantee 12 months from date of despatch

Health And Safety Information Material Safety Datasheet documentation #10268 available at:
10268: <https://www.bio-rad-antibodies.com/uploads/MSDS/10268.pdf>

Donor material tested and found negative for HIV1 and 2 antibodies, Hepatitis C antibody and Hepatitis B antigen.

As no test can completely guarantee this material to be free of pathogens it should be handled as potentially infectious
