

Datasheet: PHP295

BATCH NUMBER 100005637

Description:	RECOMBINANT HUMAN CCL17
Name:	CCL17
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	10 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Centrifuge vial prior to reconstitution. Reconstitute to 100 µg/ml by adding 100 µl ddH ₂ O. Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. Do not vortex.
Preparation	Recombinant protein expressed in <i>E. coli</i> and purified by ion exchange chromatography
Buffer Solution	50 mM Tris-HCl, pH 8.0, 0.15 M Sodium Chloride
Preservative Stabilisers	1.0% Trehalose
Approx. Protein Concentrations	100 µg/ml after reconstitution
External Database	UniProt:

CCL17

[Related reagents](#)**Synonyms**

SCYA17, TARC

Product Information**Recombinant Human CCL17**

CCL17 also known as TARC and SCYA17 is a C-C chemokine highly expressed by the thymus and other cell types, including fibroblasts ([Li et al. 2019](#)). CCL17 induces and enhances a broad spectrum of immune reactions, including some contact hypersensitivity reactions, allograft rejections, inflammatory bowel disease, atopic dermatitis and atherosclerosis ([Scheu et al. 2017](#)). Therapeutic use of antibodies to neutralize CCL17 can block influx of T cells and ameliorate the impact of various diseases ([Teplyakov et al. 2017](#)). Upregulation of CCL17 has been reported in breast cancer, and predicts a decrease in overall survival for patients with breast cancer ([Li et al. 2019](#)).

This recombinant Human CCL17 can be used to create a standard curve in a sandwich ELISA with purified Mouse anti Human CCL17 antibody, clone I02-2A4 ([MCA6180GA](#)) as the capture antibody and biotinylated Mouse anti Human CCL17 antibody, clone I11-2A1 ([MCA6181B](#)) as the detection antibody.

Protein Molecular Weight

8.1 kDa

Purity

≥90 % determined by coomassie blue staining of a reducing SDS-PAGE gel

Amino Acid SequenceMARGTNVGRE CCLEYFKGAI PLRKLKTWYQ TSEDCSRDAI VFVTVQGRAI
CSDPNNKRVK NAVKYLQSLE RS**Storage**

Prior to reconstitution store at -70°C. Following reconstitution store at -80°C.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the protein. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

Guaranteed for 3 months from the date of reconstitution or until the date of expiry, whichever comes first. Please see label for expiry date.
