

Datasheet: PPP021

**BATCH NUMBER 164980**

<b>Description:</b>	RECOMBINANT PIG ERYTHROPOIETIN
<b>Name:</b>	ERYTHROPOIETIN
<b>Format:</b>	Rec. Protein
<b>Product Type:</b>	Recombinant Protein
<b>Quantity:</b>	5 µg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Pig
<b>Product Form</b>	Purified recombinant protein - lyophilized
<b>Reconstitution</b>	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
<b>Preparation</b>	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
<b>Source</b>	<i>Pichia pastoris</i>
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	10% Trahalose

**Product Information**   **Recombinant Pig erythropoietin** is an 18.6 kDa recombinant protein corresponding to aa 27 - 194 of native porcine erythropoietin (EPO).

Erythropoietin, commonly known as EPO or hematopoietin, is a secreted protein belonging to the EPO/TPO family and involved in erythrocyte regulation.

Erythropoietin is a hormone secreted from, in adult mammals, primarily the kidney but to a lesser extent the liver. In the fetus, EPO is secreted from the liver. EPO functions as a regulatory cytokine in the differentiation of erythrocytes.

---

**Protein Molecular Weight**   18.6 kDa

---

**Purity**   >95% by SDS PAGE analysis

---

**ELISA**   This reagent may be used as a standard in a sandwich ELISA assay in conjunction with [AHP2389](#) as a coating antibody and [AHP2389B](#) as a detection antibody.

---

**Storage**   Prior to reconstitution store at -20°C.  
After reconstitution store at -20°C.  
Storage in frost-free freezers is not recommended. This product should be stored undiluted.

---

**Guarantee**   12 months from date of despatch

---

**Health And Safety Information**   Material Safety Datasheet documentation #10591 available at: <https://www.bio-rad-antibodies.com/SDS/PPP02110591>
