

Datasheet: PPP029

Description:	RECOMBINANT PIG TNF ALPHA
Name:	TNF ALPHA
Other names:	TNFSF2
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			
Western Blotting	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Pig
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	10% Trehalose
External Database Links	<p>UniProt: P23563 Related reagents</p> <p>Entrez Gene: 397086 TNF Related reagents</p>
Synonyms	TNFA, TNFSF2
Product Information	Recombinant Pig tumor necrosis factor alpha (TNF alpha), also known as tumor necrosis factor

ligand superfamily member 2 (TNFSF2), corresponds to aa 77-232 of native pig TNF alpha. This recombinant protein is produced in yeast cells and is naturally folded and post translationally modified.

Pig TNF alpha is produced by a range of cells, including macrophages, monocytes, T and B lymphocytes and is an important mediator of the porcine inflammatory response.

This product may be used as a standard in immunoassays.

Protein Molecular Weight	16.9 kDa
---------------------------------	----------

Purity	>95% by SDS PAGE analysis
---------------	---------------------------

ELISA	This reagent may be used as a standard in a sandwich ELISA assay in conjunction with AHP2397 as a coating antibody and AHP2397B as a detection antibody.
--------------	--

Storage	Prior to reconstitution store at -20°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the protein.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10591 available at: 10591: https://www.bio-rad-antibodies.com/uploads/MSDS/10591.pdf
--------------------------------------	--

Regulatory	For research purposes only
