

Datasheet: PRABP004

BATCH NUMBER 161153

Description:	RECOMBINANT RABBIT INTERLEUKIN-17A
Name:	IL-17A
Format:	Rec. Protein
Product Type:	Recombinant Protein
Quantity:	5 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Rabbit
Product Form	Purified recombinant protein - lyophilized
Reconstitution	Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution.
Preparation	Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	10% Trehalose
External Database Links	UniProt: G1SLF2 Related reagents

Product Information **Recombinant Rabbit interleukin-17A** is a recombinant protein corresponding to aa 24 - 153 of rabbit interleukin-17A (IL-17A). IL-17A is a disulfide-linked homodimer and member of the IL-17 family, secreted primarily by activated CD4⁺ T cells, which signal through the IL-17 receptor (IL-17R).

IL-17 induces a variety of target cells to secrete inflammatory cytokines, including IL-1 β , IL-6, TNF α , IFN γ and granulocyte colony-stimulating factor, as well as synergizing with other inflammatory cytokines and agonists.

Protein Molecular Weight	14.9 kDa
---------------------------------	----------

Purity	>95% by SDS PAGE analysis
---------------	---------------------------

ELISA	This reagent may be used as a standard in a sandwich ELISA assay in conjunction with AHP2990 as a coating antibody and AHP2990B as a detection antibody.
--------------	--

Storage	Prior to reconstitution store at -20°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stored undiluted.
----------------	--

Guarantee	12 months from date of despatch
------------------	---------------------------------

Health And Safety Information	Material Safety Datasheet documentation #10591 available at: https://www.bio-rad-antibodies.com/SDS/PRABP004 10591
--------------------------------------	---

Regulatory	For research purposes only
