

# Datasheet: PRABP004 BATCH NUMBER 168452

| Description:         | RECOMBINANT RABBIT INTERLEUKIN-17A |
|----------------------|------------------------------------|
| Name:                | IL-17A                             |
| Format:              | Rec. Protein                       |
| <b>Product Type:</b> | Recombinant Protein                |
| Quantity:            | 5 μg                               |

### **Product Details**

## **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|       | Yes | No | Not Determined | Suggested Dilution |
|-------|-----|----|----------------|--------------------|
| ELISA | •   |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species              | Rabbit   |
|-----------------------------|--|
| Product Form                | Purified recombinant protein - lyophilized   |
| Reconstitution              | Reconstitute with 20 µl sterile PBS containing 0.1% carrier protein  Care should be taken during reconstitution as the protein may appear as a film at the bottom of the vial. Bio-Rad recommend that the vial is gently mixed after reconstitution. |
| Preparation                 | Recombinant protein expressed in <i>Pichia pastoris</i> and purified by ion-exchange chromatography  |
| Source                      | Pichia pastoris  |
| Buffer Solution             | Phosphate buffered saline  |
| Preservative<br>Stabilisers | 10% Trehalose  |
| External Database<br>Links  | UniProt:   |

#### Related reagents G1SLF2

| IL-17 induces a variety of target cells to secrete inflammatory cytokines, included IL-6, TNFα, IFNγ and granulocyte colony-stimulating factor, as well as synergy other inflammatory cytokines and agonists.  Protein Molecular Weight  14.9 kDa  Purity >95% by SDS PAGE analysis  ELISA This reagent may be used as a standard in a sandwich ELISA assay in conjundad AHP2990 as a coating antibody and AHP2990B as a detection antibody.  Storage Prior to reconstitution store at -20°C. After reconstitution store at -20°C. Storage in frost-free freezers is not recommended. This product should be stoundiluted.  Guarantee 12 months from date of despatch  Health And Safety Information Material Safety Datasheet documentation #10591 available at: https://www.bio-rad-antibodies.com/SDS/PRABP004 | <b>Recombinant Rabbit interleukin-17A</b> is a recombinant protein corresponding to aa 24 - 153 of rabbit interleukin-17A (IL-17A). IL-17A is a disulfide-linked homodimer and member of the IL-17 family, secreted primarily by activated CD4 <sup>+</sup> T cells, which signal through the IL-17 receptor (IL-17R). |  |  |  |
