

## Datasheet: STAR121B

<b>Description:</b>	GOAT ANTI RABBIT IgG (Fc):Biotin
<b>Specificity:</b>	IgG (Fc)
<b>Format:</b>	Biotin
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	1 mg

## Product Details

**RRID** AB\_10673257

**Applications** This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			1:20000 - 1:400000
Immunoprecipitation			▪	
Western Blotting	▪			1:20000 - 1:400000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

**Target Species** Rabbit

**Product Form** Purified IgG fraction conjugated to Biotin - liquid

**Antiserum Preparation** Antisera to rabbit IgG were raised by repeated immunisations of goats with highly purified antigen. Purified IgG was prepared by affinity chromatography.

**Buffer Solution** Phosphate buffered saline

**Preservative** 0.09% Sodium Azide (NaN<sub>3</sub>)

**Stabilisers** 0.2% Bovine Serum Albumin

**Approx. Protein Concentrations** IgG concentration 1.0 mg/ml

---

**Specificity**

**Goat anti rabbit IgG antibody** recognizes the Fc region of rabbit immunoglobulin G, confirmed by ELISA and immunoelectrophoresis. The antibody has not been species cross adsorbed and may cross react with IgG from other species. It shows weak recognition of rabbit IgM in ELISA.

Goat anti rabbit IgG antibody has been used successfully as a secondary detection reagent for rabbit primary antibodies using immunohistochemical techniques ([Redondo \*et al.\* 2013](#)).

**Storage**

Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee**

12 months from date of despatch.
