

## Datasheet: STAR132A BATCH NUMBER 157748

Description:	GOAT ANTI MOUSE IgG1:Alk. Phos.
Specificity:	lgG1
Format:	Alk. Phos.
Product Type:	Polyclonal Antibody
lsotype:	Polyclonal IgG
Quantity:	1 ml

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .					
		Yes	No	Not Determined	Suggested Dilution	
	Immunohistology - Frozen	-		Not Betermined	ouggested Bhation	
	Immunohistology - Paraffin	-				
	ELISA				1/2000 - 1/4000	
	Western Blotting				1/2000 1/1000	
	Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.					
Target Species	Mouse					
Species Cross Reactivity	Does not react with:Hum	an				
Product Form	Purified IgG conjugated to Alkaline Phosphatase - liquid					
Antiserum Preparatio	<b>n</b> Antisera to mouse IgG w antigen. Purified IgG1 wa		• •	-	•	
Buffer Solution	50mM TRIS 1mM MgCl <sub>2</sub>					
Preservative Stabilisers	0.1%Sodium Azide (NaN 50% Glycerol	3)				

Immunogen	Mouse IgG1 paraproteins.					
External Database Links	UniProt:         P01869       Related reagents         P01868       Related reagents         Entrez Gene:       16017         16017       Ighg1       Related reagents         16017       Ighg1       Related reagents					
Synonyms	Igh-4					
RRID	AB_2124270					
Specificity	<b>Goat anti Mouse IgG1 antibody</b> recognizes Mouse IgG1. This antibody has been cross absorbed against mouse IgM, IgG2a, IgG2b, IgG3 and IgA, pooled human sera and purified human paraproteins. Goat anti Mouse IgG1 antibody shows minimal cross-reactivity with human immunoglobulins.
