

Datasheet: STAR67

Description:	APAAP COMPLEX (MOUSE)
Specificity:	APAAP COMPLEX
Format:	Complex
Product Type:	Monoclonal Antibody
Clone:	WR31
Isotype:	IgG1
Quantity:	1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			1/30 - 1/50
Immunohistology - Paraffin	▪			1/30 - 1/50
Immunohistology - Resin	▪			1/30 - 1/50

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Chemical
Product Form	Complexes of monoclonal anti-alkaline phosphatase antibody with alkaline phosphatase
Buffer Solution	RPMI1640 medium
Preservative Stabilisers	0.09% Sodium Azide
Immunogen	Bovine alkaline phosphatase.
RRID	AB_322570
Fusion Partners	Spleen cells from immunized Balb/c mice were fused with cells of the mouse NS1 myeloma cell line.
Specificity	APAAP complexes are designed for use as detection reagents in immunohistochemistry

procedures. They are used in combination with a suitable bridging antibody and appropriate visualization system.

Storage

Store at +4°C.

DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

12 months from date of despatch

Health And Safety Information

Material Safety Datasheet documentation #10053 available at: 10053: <https://www.bio-rad-antibodies.com/uploads/MSDS/10053.pdf>
