## Datasheet: STAR9B BATCH NUMBER 151784

Description:	RABBIT F(ab')2 ANTI MOUSE IgG:FITC
Specificity:	lgG
Format:	FITC
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 mg

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is						
	derived from testir	ng within our labo	oratories,	peer-reviewed publication	tions or personal		
	communications f	rom the originato	rs. Pleas	e refer to references in	dicated for further		
	information. For general protocol recommendations, please visit <u>www.bio-</u>						
	rad-antibodies.com/protocols.						
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry	•			1/25 - 1/100		
	Where this antibo	dy has not been	tested for	use in a particular tec	hnique this does not		
	necessarily exclude its use in such procedures. Suggested working dilutions are given as						
	a guide only. It is recommended that the user titrates the antibody for use in their own						
	system using app	ropriate negative	/positive o	controls.			
Target Species	Mouse						
Species Cross	Reacts with: Rat						
Reactivity	N.B. Antibody reactivity and working conditions may vary between species. Cross						
	reactivity is derived from testing within our laboratories, peer-reviewed publications or						
	personal communications from the originators. Please refer to references indicated for						
	further information	1.					
Product Form	F(ab') <sub>2</sub> fragment c	of IgG conjugated	l to Fluore	escein Isothiocyanate I	somer I (FITC) - liquid		
Max Ex/Em	Fluorophore	Excitation M	/lax (nm)	Emission Max (nm)			
	FITC	490		525			
Antiserum Preparation	<b>n</b> Antisera to Mouse IgG were raised by repeated immunisation of rabbits with highly						
	purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.						
	$F(ab')_2$ fragments were prepared by pepsin digestion of the IgG followed by a gel filtration						
	step to remove the remaining intact IgG or Fc fragments.						
Buffer Solution	Phosphate buffere	ed saline					

Preservative Stabilisers	0.09% Sodi			
Approx. Protein Concentrations	F(ab') <sub>2</sub> cond			
Immunogen	Purified mo	use IgG.

Storage Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

		Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.				
						e the antibody. Should this gation before use.
