

Datasheet: TZA0111P

BATCH NUMBER 171453

Description:	HUMAN ANTI BUROSUMAB (DRUG/TARGET COMPLEX):HRP
Specificity:	BUROSUMAB DRUG/TARGET COMPLEX
Other names:	Crysvita
Format:	HRP
Product Type:	Monoclonal Antibody
Clone:	AbD64797
Isotype:	Fab antibody
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

A bivalent human recombinant Fab (lambda light chain) generated by coupling of the monovalent SpyTagged Fab [TZA0111](#) with a HRP conjugated BiSpyCatcher version 2 ([TZC002P](#)). The coupled antibody has two DYKDDDDK tags and three His6-tags. It contains SpyTag3 peptide ([BLP086](#)) in 5-fold molar excess to block any unreacted Catcher sites. This antibody is supplied as a liquid.

Preparation

Metal chelate affinity chromatography

Source

E.coli

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.0095% MIT

Approx. Protein

Antibody concentration 0.5 mg/ml

Concentrations

Immunogen hFGF-23-His/Burosumab complex

Specificity **Human Anti-Burosumab (Drug/Target Complex) Antibody, clone AbD64797** specifically recognizes the antibody drug burosumab when in complex with its target, hFGF-23-His. It does not recognize free burosumab nor unbound hFGF-23-His.

The monovalent Fab format of this antibody, clone AbD64797ad (TZA0111) is tagged with a SpyTag2 at the C-terminus of the Fab heavy chain, enabling the user to couple it to a [SpyCatcher reagent](#) for conversion to alternative formats in less than one hour.

This antibody is also available as a bivalent Fab antibody pre-coupled to the HRP-conjugated BiSpyCatcher2 ([TZC002P](#)) under product code TZA0111P for direct detection of the Burosumab/ hFGF-23-His complex in bioanalysis assays.

Clone AbD64797 can be used in pharmacokinetic (PK) antigen capture format assays to measure burosumab that has been captured via immobilized hFGF-23-His. It is ideal for bioanalytical assays to measure the level of drug or biosimilar in complex with the hFGF-23-His target.

Burosumab (trade name Crysvida) is a humanized monoclonal antibody of the IgG1/kappa isotype that binds to fibroblast growth factor-23 (FGF23), blocking the interaction with the FGFR1. Burosumab therefore inhibits FGF23 signaling, thereby increasing tubular phosphate reabsorption and decreasing renal phosphate excretion, as well as increasing serum levels of 1,25(OH)2D and increasing GI absorption of phosphate. As a result, bone mineralization is improved and the risk of bone disease is decreased. Burosumab is indicated for the treatment of X-linked hypophosphatemia and tumor-induced osteomalacia.

Affinity The monovalent intrinsic affinity of AbD64797pap was measured as $K_D = 1$ nM by real time, label free molecular interaction analysis on immobilized human hFGF-23-His/burosumab complex.

ELISA Clone AbD64797pap may be used in a direct ELISA to detect the human hFGF-23-His/Burosumab complex or to detect burosumab bound to immobilized human hFGF-23-His.

Storage This product is shipped frozen.
When ready to use, thaw and aliquot the sample as needed. Store aliquots at -70°C, if available, otherwise store at -20°C. It is not recommended to keep aliquots at 4°C for more than one week.

Guarantee 12 months from date of despatch

Acknowledgements This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See bio-rad.com/en-us/trademarks for details.
