

Datasheet: TZA0120GA

**BATCH NUMBER 64714516**

<b>Description:</b>	MOUSE ANTI HUMAN CD66ace
<b>Specificity:</b>	CD66ace
<b>Other names:</b>	CD66
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	rA3B3-04/1E2
<b>Isotype:</b>	IgG1
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Human
<b>Product Form</b>	Purified recombinant IgG containing a SpyTag at the C-terminus of the antibody heavy chain – liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein A from tissue culture supernatant
<b>Source</b>	CHO cells
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )
<b>Approx. Protein</b>	IgG concentration 1.0 mg/ml

## Concentrations

---

**Immunogen** Recombinant CD66a Gln35-Gly428 expressed by mammalian cells

---

**Synonyms** BGP, BGP1, CEA, NCA

---

**Specificity** **Mouse anti Human CD66ace antibody, clone A3B3-04/1E2**, is a recombinant monoclonal antibody that recognizes an epitope common to CD66 a, c and e, also known respectively as cell adhesion molecule CEACAM 1, 6 and 5.

CD66 a, c and e are members of the carcinoembryonic antigen (CEA) family, which is involved in a range of cellular processes through homotypic and heterotypic interactions. CD66 a, c and e all have an extracellular region containing at least one domain homologous to the immunoglobulin variable domain. CD66a is a transmembrane protein, whilst CD66 c and e associate to the cell membrane via a GPI anchor. CD66 proteins each have a specific expression pattern. CD66a is broadly expressed and the only family member expressed on activated T cells. CD66a has been attributed to multiple cellular functions, including the modulation of adaptive and innate immune responses, roles in apoptosis, angiogenesis, and involvement in the development of 3D tissue structure. The binding of CD66a by viral and bacterial adhesins can inhibit the function of immune cells, providing a route for pathogens to potentially suppress immune response to infection.

CD66 proteins are associated with immune related diseases and are considered clinical biomarkers and promising therapeutic targets for various types of cancer. CD66a is involved in inflammatory bowel disease, with a protective role in models of colitis. CD66a is a biomarker in non-small cell lung cancer, pancreatic adenocarcinoma and melanoma. CD66e is approved by the FDA as a diagnostic marker for colon cancer.

---

**Flow Cytometry** Use 5µl of the suggested working dilution to label 0.5x10<sup>6</sup> cells in 100µl. Best practices suggest a 5 min centrifugation at 6,000g prior to sample application.

---

**Storage** This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

<b>Guarantee</b>	12 months from date of despatch
<b>Acknowledgements</b>	This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See <a href="https://www.bio-rad.com/en-us/trademarks">bio-rad.com/en-us/trademarks</a> for details.
