

Datasheet: TZA0128P

BATCH NUMBER 172656

Description:	HUMAN ANTI TREMELIMUMAB (DRUG/TARGET COMPLEX):HRP
Specificity:	TREMELIMUMAB DRUG/TARGET COMPLEX
Other names:	Imjudo
Format:	HRP
Product Type:	Monoclonal Antibody
Clone:	AbD64586
Isotype:	Fab antibody
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

A bivalent human recombinant Fab (lambda light chain) generated by coupling of the monovalent SpyTagged Fab [TZA0128](#) with a HRP conjugated BiSpyCatcher version 2 ([TZC002P](#)). The coupled antibody has two DYKDDDDK tags and three His6-tags. It contains SpyTag3 peptide ([BLP086](#)) in 5-fold molar excess to block any unreacted Catcher sites. This antibody is supplied as a liquid.

Preparation

Metal chelate affinity chromatography

Source

E.coli

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.0095% MIT

Approx. Protein

Antibody concentration 0.5 mg/ml

Concentrations

Immunogen CTLA-4/Tremelimumab complex

Specificity **Human Anti-Tremelimumab (Drug/Target Complex) Antibody, clone AbD54142** specifically recognizes the antibody drug tremelimumab when in complex with its target, cytotoxic T-lymphocyte-associated protein 4 (CTLA-4). It does not recognize free tremelimumab nor unbound CTLA-4.

The monovalent Fab format of this antibody, clone AbD64586ad (**TZA0128**) is tagged with a SpyTag2 at the C-terminus of the Fab heavy chain, enabling the user to couple it to a [SpyCatcher reagent](#) for conversion to alternative formats in less than one hour.

This antibody is also available as a bivalent Fab antibody pre-coupled to the HRP-conjugated BiSpyCatcher2 ([TZA002P](#)) under product code **TZA0128P** for direct detection of the Tremelimumab/ CTLA-4 complex in bioanalysis assays.

Clone AbD64586 can be used in pharmacokinetic (PK) antigen capture format assays to measure tremelimumab that has been captured via immobilized CTLA-4. It is ideal for bioanalytical assays to measure the level of drug or biosimilar in complex with the CTLA-4 target.

Tremelimumab (trade name Imjudo) is a fully humanized monoclonal IgG2/kappa antibody with allotypeIGHG2*01. It binds to cytotoxic T-lymphocyte-associated protein 4 (CTLA-4) to enhance T cell-mediated killing of tumours and reduces tumour growth. Tremelimumab in combination with durvalumab and platinum-based chemo-therapy is indicated for the first-line treatment of adults with metastatic non-small cell lung cancer (NSCLC) with no sensitising EGFR mutations or ALK positive mutations.

[View a summary of all anti-tremelimumab antibodies](#)

Affinity The monovalent intrinsic affinity of AbD64586pap was measured as $K_D = 23$ nM by real time, label free molecular interaction analysis on immobilized human CTLA-4/tremelimumab complex.

ELISA Clone AbD64586pap may be used in a direct ELISA to detect the human CTLA-4/Tremelimumab complex or to detect tremelimumab bound to immobilized human CTLA-4.

Protocol: [PK antigen capture ELISA](#)

Storage This product is shipped frozen.
When ready to use, thaw and aliquot the sample as needed. Store aliquots at -70°C, if available, otherwise store at -20°C. It is not recommended to keep aliquots at 4°C for more than one week.

Guarantee 12 months from date of despatch

Acknowledgements This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and

non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See [bio-rad.com/en-us/trademarks](https://www.bio-rad.com/en-us/trademarks) for details.

His-tag is a registered trademark of EMD Biosciences.

Imjudo is a trademark of Pfizer a now investigated by MedImmune (AstraZeneca).

Health And Safety Information	Material Safety Datasheet documentation #20479 available at: https://www.bio-rad-antibodies.com/SDS/TZA0128P
Licensed Use	For <i>in vitro</i> research purposes only, unless otherwise specified in writing by Bio-Rad.
Regulatory	For research purposes only
Technical Advice	Recommended protocols for coupling a Fab antibody with a SpyTag to a SpyCatcher can be found at SpyTag and SpyCatcher Products , and further information about HuCAL recombinant antibody technology can be found in the HuCAL Antibodies Technical Manual
