

## Datasheet: TZA0153P

|                      |   |
|----------------------|---|
| <b>Description:</b>  | HUMAN ANTI GALCANEZUMAB (DRUG/TARGET COMPLEX):HRP |
| <b>Specificity:</b>  | GALCANEZUMAB DRUG/TARGET COMPLEX                  |
| <b>Other names:</b>  | Emgality  |
| <b>Format:</b>       | HRP   |
| <b>Product Type:</b> | Monoclonal Antibody                               |
| <b>Clone:</b>        | AbD64731  |
| <b>Isotype:</b>      | Fab antibody                                      |
| <b>Quantity:</b>     | 0.1 mg  |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|       | Yes | No | Not Determined | Suggested Dilution |
|-------|-----|----|----------------|--------------------|
| ELISA | ▪   |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Product Form

A bivalent human recombinant Fab (lambda light chain) generated by coupling of the monovalent SpyTagged Fab [TZA0153](#) with a HRP conjugated BiSpyCatcher version 2 ([TZC002P](#)). The coupled antibody has two DYKDDDDK tags and three His6-tags. It contains SpyTag3 peptide ([BLP086](#)) in 5-fold molar excess to block any unreacted Catcher sites. This antibody is supplied as a liquid.

### Preparation

Metal chelate affinity chromatography

### Source

E.coli

### Buffer Solution

Phosphate buffered saline

### Preservative Stabilisers

0.0095% MIT

### Approx. Protein Concentrations

Antibody concentration 0.5 mg/ml

|                                      |   |
|--------------------------------------|---|
| <b>Immunogen</b>                     | CGRP/Galcanezumab complex   |
| <b>Specificity</b>                   | <p><b>Human Anti-Galcanezumab (Drug/Target Complex) Antibody, clone AbD64731</b> specifically recognizes the antibody drug galcanezumab when in complex with its target, calcitonin gene-related peptide (CGRP). It does not recognize free galcanezumab nor unbound CGRP.</p> <p>The monovalent Fab format of this antibody, clone AbD64731ad (<b>TZA0153</b>) is tagged with a SpyTag2 at the C-terminus of the Fab heavy chain, enabling the user to couple it to a <a href="#">SpyCatcher reagent</a> for conversion to alternative formats in less than one hour. This antibody is also available as a bivalent Fab antibody pre-coupled to the HRP-conjugated BiSpyCatcher2 (<a href="#">TZC002P</a>) under product code <b>TZA0153P</b> for direct detection of the Galcanezumab/ CGRP complex in bioanalysis assays.</p> <p>Clone AbD64731 can be used in pharmacokinetic (PK) antigen capture format assays to measure galcanezumab that has been captured via immobilized CGRP. It is ideal for bioanalytical assays to measure the level of drug or biosimilar in complex with the CGRP target.</p> <p>Galcanezumab (trade name Emgality) is a fully humanized recombinant monoclonal antibody of isotype IgG4 kappa. It binds to calcitonin gene-related peptide (CGRP) making it unable to bind to CGRP receptors. Galcanezumab is indicated the preventative treatment of migraines and treatment of episodic cluster headache.</p> |
| <b>Affinity</b>                      | The monovalent intrinsic affinity of AbD64731pap was measured as $K_D = 8$ nM by real time, label free molecular interaction analysis on immobilized human CGRP/Galcanezumab complex.   |
| <b>ELISA</b>                         | Clone AbD64731pap may be used in a direct ELISA to detect the human CGRP/Galcanezumab complex or to detect galcanezumab bound to immobilized CGRP.  |
| <b>Storage</b>                       | <p>This product is shipped frozen.</p> <p>When ready to use, thaw and aliquot the sample as needed. Store aliquots at -70°C, if available, otherwise store at -20°C. It is not recommended to keep aliquots at 4°C for more than one week.</p>  |
| <b>Guarantee</b>                     | 12 months from date of despatch   |
| <b>Acknowledgements</b>              | <p>This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See <a href="http://bio-rad.com/en-us/trademarks">bio-rad.com/en-us/trademarks</a> for details.</p> <p>His-tag is a registered trademark of EMD Biosciences.</p> <p>Emgality is a trademark of Eli Lilly and company.</p>   |
| <b>Health And Safety Information</b> | Material Safety Datasheet documentation #20479 available at: <a href="https://www.bio-rad-antibodies.com/SDS/TZA0153P">https://www.bio-rad-antibodies.com/SDS/TZA0153P</a>  |
| <b>Licensed Use</b>                  | For <i>in vitro</i> research purposes only, unless otherwise specified in writing by Bio-Rad.   |
