

Datasheet: TZA017

BATCH NUMBER 164129

Description:	HUMAN ANTI DUPILUMAB
Specificity:	DUPILUMAB
Other names:	Dupixent
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	AbD48542
Isotype:	Fab antibody
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

A monovalent human recombinant Fab (lambda light chain) selected from the HuCAL® phage display library, expressed in a proprietary *E. coli* strain. The antibody is tagged with a DYKDDDDK tag, a SpyTag version 2 (VPTIVMVDAYKRYK) and a His6-tag (HHHHHH) at the C-terminus of the antibody heavy chain. This antibody is supplied as a liquid.

Preparation

Metal chelate affinity chromatography

Source

E. coli

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.0095% MIT

Approx. Protein

Antibody concentration 0.5 mg/ml

Concentrations

Immunogen Dupilumab

Specificity **Human Anti-Dupilumab Antibody, clone AbD48542** is a paratope specific, non-inhibitory anti-idiotypic antibody (Type 2) that specifically recognizes the free human monoclonal antibody drug dupilumab, and dupilumab in complex with IL-4R α , but not free IL-4R α . This antibody can be used to measure total dupilumab levels (free as well as in complex with human IL-4R α) in serum from patients.

This TrailBlazer Antibody is available in two different formats, monovalent Fab unconjugated (TZA017) and bivalent Fab conjugated to HRP (TZA017P). The monovalent recombinant Fab antibody has a SpyTag incorporated, which is used to create the bivalent format by coupling two SpyTagged Fab antibodies to an HRP conjugated BiSpyCatcher2 ([TZC002P](#)). Either format can be used to develop a pharmacokinetic (PK) bridging ELISA to measure free dupilumab captured via immobilized IL-4R α .

TZA017 can also be converted by the user into alternative antibody formats using any of the SpyCatchers available in our catalog.

[View a summary of all SpyCatcher products](#)

Dupilumab (Dupixent) is a human IgG4/kappa antibody inhibiting both IL-4 and IL-13 receptors, thereby blocking these receptor signaling pathways. Dupilumab inhibits the signaling of interleukins (IL) that induce inflammatory and immunological reactions in several atopic or allergic conditions, such as eczema, allergic reaction, and rhinosinusitis.

Affinity The monovalent intrinsic affinity of AbD48542ad was measured as $K_D = 179$ nM by real time, label free molecular interaction analysis on immobilized dupilumab.

ELISA Clone AbD48542ad can be used as a detection antibody, together with [TZA016](#) as the capture antibody to detect dupilumab total drug levels in the serum of patients in PK Bridging ELISA.
Note that both [TZA016](#) (capture) and TZA017 (detection) contain the same peptide tags, therefore using anti-tag antibodies for detecting TZA017 is not possible.

Protocol: [PK Bridging ELISA to measure total drug](#)

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch

Acknowledgements This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See bio-rad.com/en-us/trademarks for details.
