

## Datasheet: TZA047P

**BATCH NUMBER 168433**

|                      |                          |
|----------------------|--------------------------|
| <b>Description:</b>  | HUMAN ANTI SARILUMAB:HRP |
| <b>Specificity:</b>  | SARILUMAB                |
| <b>Other names:</b>  | Kevzara                  |
| <b>Format:</b>       | HRP                      |
| <b>Product Type:</b> | Monoclonal Antibody      |
| <b>Clone:</b>        | AbD51309                 |
| <b>Isotype:</b>      | Fab antibody             |
| <b>Quantity:</b>     | 0.1 mg                   |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|       | Yes | No | Not Determined | Suggested Dilution |
|-------|-----|----|----------------|--------------------|
| ELISA | ▪   |    |                |                    |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Product Form

A bivalent human recombinant Fab (kappa light chain) generated by coupling of the monovalent SpyTagged Fab [TZA047](#) with a HRP conjugated BiSpyCatcher version 2 ([TZC002P](#)). The coupled antibody has two DYKDDDDK tags and three His6-tags. It contains SpyTag3 peptide ([BLP086](#)) in 5-fold molar excess to block any unreacted Catcher sites. This antibody is supplied as a liquid.

### Preparation

Metal chelate affinity chromatography

### Source

E.coli

### Buffer Solution

Phosphate buffered saline

### Preservative Stabilisers

0.0095% MIT

### Approx. Protein

Antibody concentration 0.5 mg/ml

## Concentrations

---

**Immunogen** Sarilumab

---

**Specificity** **Human Anti-Sarilumab Antibody, clone AbD51309** is a paratope specific, inhibitory, anti-idiotypic antibody (Type 1) that specifically recognizes the free human monoclonal antibody drug sarilumab, and its biosimilar products. It does not recognize the drug target, the human Interleukin 6 receptor (IL-6R), nor sarilumab in complex with IL-6R. This antibody can be used to measure free sarilumab levels in serum from patients.

AbD51309 is available as a monovalent Fab antibody incorporating a SpyTag at the C-terminus end of the antibody heavy chain for conversion by the end user into alternative formats using any of the [SpyCatchers](#) available in our catalog under product code [TZA047](#). It is also available as a bivalent Fab antibody already conjugated to HRP via coupling to the HRP conjugated BiSpyCatcher2 ([TZC002P](#)) for use in direct ELISA under product code [TZA047P](#).

A pair of anti-sarilumab antibodies can be used to develop a pharmacokinetic (PK) bridging assay to measure free drug; clone AbD51309 is recommended as the detection antibody paired with clone AbD50191ad ([TZA046](#)) as the capture reagent.

Sarilumab (trade name Kevzara) is a humanized monoclonal antibody of the IgG1/kappa isotype that suppresses the inflammatory effects of interleukin-6 (IL-6) by binding to both membrane bound and soluble IL-6 receptor forms, thus blocking cis- and trans-inflammatory signaling cascades. Through this, sarilumab blocks the IL-6 signaling pathway (measured as STAT-3 inhibition). It is indicated for the treatment of moderate to severe reactive Rheumatoid Arthritis (RA) in adult patients who are irresponsive, respond inadequately or present intolerance to disease-modifying anti-rheumatic drugs (DMARDs) or tumor necrosis factor (TNF) antagonists. It is also indicated in combination with methotrexate (MTX) or as a monotherapy when there is intolerance to MTX or when MTX administration is inappropriate.

---

**Affinity** The monovalent intrinsic affinity of Human Anti-Sarilumab Antibody, clone AbD51309pap was measured as  $K_D = 0.3$  nM by real time, label-free molecular interaction analysis on immobilized sarilumab.

---

**ELISA** Clone AbD51309pap can be used to detect sarilumab in direct ELISA. It may also be used as the detection antibody together with AbD50191ad ([TZA046](#)) as a capture reagent for sarilumab in a PK bridging ELISA.

---

**Storage** This product is shipped frozen.  
When ready to use, thaw and aliquot the sample as needed. Store aliquots at  $-70^{\circ}\text{C}$ , if available, otherwise store at  $-20^{\circ}\text{C}$ . It is not recommended to keep aliquots at  $4^{\circ}\text{C}$  for more than one week.  
Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

---

**Guarantee** 12 months from date of despatch
